| *Title:* | **Regularity of Harmonic Maps** |
| *Time:* | Wednesday, October 29th |

The Graduate Colloquium is an informal seminar aimed at graduate students and postdocs. The purpose is to provide a forum for communicating one's interests and thoughts in mathematics. Our goal is to make this colloquium a regular meeting point for the student and postdoc members of the *Zurich Graduate School* and thus to enhance collaboration. There will be lecture notes on the colloquium talks available to the public. It will be possible to obtain credit points.
